The Project:

The Results:

Our Philosophy

Quality, Integrity and Commitment (QIC) is the triad that forms the core of our business philosophy. QIC is a sound business ethic that we firmly believe in and carry with us to all our engagements.

Software & Systems Evaluation

Project: ERP Evaluation Services

Client: *A leading Refinery & Petrochemicals company, Mangalore.*

MRPL, a company promoted by Aditya Birla group and HPCL is a state-of-the-art refinery situated about 24 kms from Mangalore. Crude refining capacity at the refinery is 9 million tonnes per annum. MRPL's plant is the first refinery in India to have both a hydro cracker and a continuous catalytic reformer. MRPL has developed an In-house ERP package to cater to their business requirements.

The scope of the project was to study, evaluate and provide consulting support for the upgrade of their In-house ERP package. The project goal was to upgrade the ERP package to make it comprehensive, standardize various feature/functions and make reporting flexible to meet current and future business requirements.

Our scope included study & evaluation of the software package towards design aspects, aesthetics, standardization, security, technology, user interface, functionality, documentation and support. We have been involved in all the above areas and this involved interacting with the client's personnel at all levels. It has been a challenging assignment due to the scale of the system that can be compared with large ERP systems like SAP, Baan, Oracle etc..

The evaluation report has been submitted which details the shortcomings in the application software systems deployed at MRPL. The document is now a benchmark for upgrading their systems.

"We would like to upgrade our ERP and build in the features that any other comprehensive ERP can deliver. WiseSoft has excellent talent and exposure to various large ERP systems and were the right choice for the project. The evaluation. has been professionally handled and we look forward to an ongoing relationship in improving our systems"

Mr. Jayarajan P.O. - Manager Information Systems

At WiseSoft® we focus on making "Your Need, Our Concern"™
